

Prestigio

INTERACTIVE KIOSK

A solution to interact with customers or visitors and give them the opportunity to comfortably enjoy all the advantages of your website.

Prestigio IDS Kiosk is a solution which gives customers the opportunity to use familiar interactive features of online web page even when offline, show all the goods, provide information on related products, run unusual interactive companies, navigate the building and provides many more other useful features.

COMPREHENSIVE ADVERTISING CAMPAIGNS

IR touch screen of the device supports up to 10 touch points at the same time. FHD resolution of the display helps to deliver excellent advertising campaigns and impress customers with brilliant image quality. In addition, your content will be enriched with sound effects from built-in speakers.

COMPLETE SOLUTION

Built-in computer based on Windows 10 IoT together with specialized software provides complete solution and enables the creation, management and distribution of advertising content across multiple displays at any time

PROTECTED CASE

Casing of device is made from metal as well as having tempered glass. This allows to use it in any public place whilst not having to worry about it's security.

MAIN ADVANTAGES

Prestigio IDS Kiosk is a solution to make clients comfortable in your infrastructure. No matter whether they need to navigate the area, learn more about products or services, book their next visit or you just want to attract their attention with bright advertisement campaign - IDS Kiosk is ready to help.
